_ESE (End Semester Examination) CA (Continue Assessment)_)
Course Objective:
- To provide an understanding of the vital and pervasive role of Information as an essential resource in all developmental activities.
- To provide a thorough insight into all techniques of information handling with special emphasis on the application of information technology.
- By studying the Subject Library and Information Science the student will be able to understand and appreciate the purpose of Libraries in changing circumstances.
- To impart training in basic principles of Library and information science. It is useful to understand the basic functions and principals of theory as well as practical work in Library and Information Science.
- To create awareness among the students for acquiring the knowledge of specialized subjects.
- To provide necessary skills and ICT background for designing, implementing, operating and managing Libraries and Information Centres.
- To develop research skill in students and enable information science.

PROGRAM OUTCOMES:
LIS Students:
- Will be trained in Technological knowledge and professional skills.
- Will be able to effectively administer and manage Libraries and Information Centres.
- Will learn the skills of organizing information and recorded knowledge.
- Will become competent for job opportunities in LIS and related field.

6. PROGRAMME SPECIFIC OUTCOMES:
LIS Students:
- Can manage information resources and the information life-cycle through the processes of collection development, organization, preservation, conservation, access, and dissemination in accordance with physical, virtual, and technical infrastructure and needs.
- Can design and implement policies essential for creating and providing information services and resources guided by the values of patron privacy, equitable access, intellectual freedom, and ethical use of information.
- Can perform and access research based practices through the application of information literacy, inquiry, and research methods including data discovery, analytics and qualitative measures.
## Course at a Glance

**INSTRUCTIONS:**

<table>

<tr>
<td>Eligibility</td>
<td>Student having B. Lib. &amp; Inf. Sci. Degree of any recognized University shall be admitted to this Course.</td>
</tr>
<tr>
<td>Course Duration</td>
<td>The course shall be a full time course. The duration of course shall be of one year of two Semesters</td>
</tr>
</tbody>
</table>
| Medium of Instruction | The medium of instruction shall be English.  
However, the students shall have an option to write Answer-sheets, seminar, reports etc. in English/ Marathi |
| Method of Instruction | a) Lecture method, Seminar, Test, Tutorials, Home Assignment Interactive teaching learning methods. |
| Teaching aids      | Use of interactive board, video, audio tapes, Slide Show projector etc. will be made for more interactive Teaching –learning. |
| Pattern of Examination | As per CBCS Pattern and University Rules |
Note:
• Strength of students for each practical batch shall not be more than Ten (10).
• Submission of Record Book is compulsory Practical paper.
• Students shall not be allowed for practical examination without certified Record Book.
• Distribution of internal marks Theory Paper (20) shall be as follows:
  a) Two tests 5 Mark each – Total 10 marks.
  b) One seminar – 5 marks
  c) One Assessment - 5 marks
• Submission of Project Report (Dissertation ) Compulsory
• Distribution of Project report( Dissertation) marks (80+20)
  a) Project Report - 80 Marks
  b) Viva-Voce - 20 Marks

ATTENDANCE:
The minimum 75 % attendance is compulsory and shall be calculated regularly on monthly basis. The entire practical’s, assignments, seminars, Library visits Local / out of station and study tour are compulsory. Students will have to submit study tour report.

Standard of Passing:
• 80 Theory and 20 internal marks total 100 marks
• Theory passing minimum 37 marks and internal passing 8 marks.
• To pass each paper, 45 Marks out of 100 marks are required.
• To pass each practical each paper 50 Marks out of 100 are required.
• To pass each practical each paper 25 Marks out of 50 are required.
• Semester Examination: in every paper a candidate should obtained a minimum of 45% of total Marks
• Both theory and practical will be conducted at the end of each Semester.
• Internship of 4 weeks (50 Hours) in hi tech libraries after First Semester is mandatory.
Practical Course: Project Report

- The Project report shall be on an approved topic pertaining to Library and Information Science. Each student shall work under the supervision and guidance of a teacher for his/her Project report.
- The Project report (4 copies) duly approved by the Guide must be submitted through the Head of the Dept. One week before the commencement of the final practical Examination, failing which the candidates will not be allowed to appear for the examination.
- The student has to prepare a synopsis on chosen topic and present before the departmental committee. Two presentations on Project report is compulsory i.e. One for Synopsis and One after the completion of Work but before final printing.
- The Department through the Head of the Dept. shall send necessary details of internal work of the students to the Examination section.
- The Project report shall be examined by one external examiner duly appointed as per rules of the University
- The Viva-Voce based on Project report shall be conducted by the External Examiner and Internal examiner

LIBRARY AND INFORMATION SCIENCE
Paper I
Advances in Library Management

Date: ____________________ Time: ______ am/ pm

Time- 3 Hours Maximum Marks-80

N. B.-:  a) Attempt All Questions
        b) All Questions carry equal marks.

Q.1

OR

Q.2

OR

Q.3

OR

Q.4 Write short notes on any four:
   a) 
   b) 
   c) 
   d) 
   e) 
   f)
Objectives of the paper: -
1. To introduce the students with the concept, History, Styles and school of Management thoughts
2. To familiarize students with the concepts of HRD, TQM, Management of Change and Marketing of Change, Marketing of Library and information services.

Unit 1: Management Thoughts
- History of Management Schools of Thoughts
- Scientific Management
- Management Styles and Approaches, Urquhart’s Principles
- MBO

Unit 2: System Analysis
- System Analysis and Design
- Performance evaluation
- Management of Information System
- Project Management
- PERT/CPM; Re-engineering; SWOC

Unit 3: Management of Change & Marketing
- Management of Change: Concept, Problems & Techniques
- TQM: Definition, Concept, element, Quality audit
- Disaster management
- Marketing of Library and Information Services
- Current trends in Library management

Unit 4: Human Resource Management
- Organizational structure of various libraries.
- Human resource planning & Management- job description and analysis
- Job evaluation
- Interpersonal relations
- Recruitment procedures; motivation, delegation of Powers, decision making
- Training and development, performance appraisal, leadership qualities.
Recommended Books:

8. **Krishan Kumar.** (1993) Library administration and management. New Delhi: Vikas,

16. Ranganthan Endowment for Library Science,

18. Varanasi. Indian Bibliographic Centre,

Objectives of the paper: -
- To make students acquainted with research process.
- To introduce the students with various research methods.

Unit 1: Basic concepts of Research
- Concept, Meaning, Need and Process of Research
- Types of Research: Pure, Applied and Action Research
- Spiral of Scientific Method
- LIS Research
- Literature Search
- Research Ethics

Unit 2: Research Design
- Research Design: Meaning, Definition and Steps in Research Design
- Synopsis: concept and essential Components
- Criteria for selection of research problem
- Identification and formulation of Problem
- Hypothesis: Meaning, Definitions, types and qualities of good hypotheses

Unit 3: Research Methods
- Historical Method.
- Descriptive Method
- Case Study Method
- Experimental Method
- Delphi Technique

Unit 4: Data Collection Tools & Techniques
- Types of data: Primary & Secondary
- Questionnaire
- Interview
- Schedule
- Observation
- Check lists
- Recent data collection Techniques
Recommended Books:

Objectives of the paper: -
- To be acquainted with the ICT technology.
- To train students about the Advanced ICT Applications.
- To develop acquaintance for effective implementation of ICT in libraries.

Unit 1: Information and Communication Technology
- Concept, Meaning, Definitions, Scope, Need, Advantages and Use
- Information generation and communication channels: Formal and Informal
- Barriers of Information communications
- Basics of communication Technology: Transmission media, Switching systems, Modes

Unit 2: Networking
- Network: Concept, Need, Advantages
- Topologies and Types of Network (LAN, MAN, WAN)
- Network Media
- OSI model, ISDN, Wi-Fi
- Networking Techniques
- Switching Systems: Techniques and Types
- Networking Security: Authentication, Firewalls, Virus & Spyware
- Library Networks
- Web at National and International Levels

Unit 3: Internet
- Internet: Meaning, Definitions
- Type of connectivity, components
- Internet protocols
- Internet Security
- Search Engines

Unit 4: Current Trends
- Web 1.0, web 2.0, web 3.0: Concept and difference between them
- Components of web 2.0
- Application of web 2.0 components in Libraries and Information Centres
Recommended Books:

Objectives of the paper: -

1) To acquaint the students with the recent development in the subject
2) To give hand on experience

Unit I: Internet Browsing: Basic and Advanced Search using search engines
Unit 2: Searching Information using Information Systems & Networks
Unit 3: Developing Library Websites using readymade tools
Unit 4: Creation of Weblogs for the library & Information centre.
Unit 5. Creation of Digital Library using Open Source Software.

Note:

Practical Course (P2):
Question Paper Pattern: Recent Trends in ICT: Practice (Sem-I)

Time: 2 Hours Total Marks: 40 (per Bach)
All questions carry equal marks

Q. 1) [10 Marks]
Q. 2) [10 Marks]
Q. 3) [10 Marks]
Q. 4) Viva- Voce [20 Marks]
Objectives of the paper: -

1) To provide actual working experience in the library.
2) To Acquaint the managerial skills for handling the library

The student is expected to work in any academic library for 4 weeks (50 Hours) and after completion of the duration he/she has to submit the record and certificate to the HOD.
Master of Library and Information Science

SEMESTER – II

MLIB – Paper - VI

Statistical Methods and Techniques in Research

Objectives of the paper: -

• To develop research skills in students and enable them to carry out research in Library & Information Science.
• To understand on both qualitative & quantitative techniques for data analysis and consolidation.
• To familiarize the art and style of writing a research report.

Unit 1: Data Processing and Presentation

• Sampling Techniques: Concept, Purpose, Principles and Key terms in sampling terms
• Types of Sampling
• Processing of Data: Editing, Coding and Classification
• Data Presentation Techniques: Tabulation and Graphical Presentation.

Unit 2: Statistics and its Applications

• Types of Scale
• Descriptive statistics: Measures of Central Tendency and Dispersion, Mean, Mode, Median
• Inferential statistics: Statistical estimation & Testing of Hypothesis
• Chi Square Test, T-test, Z-test etc.

Unit 3: Statistical Packages

• SPSS
• MS- Excel
• Web-based Statistical Analysis Tools
• Online Reference Management Tools

Unit 4: Research Reporting

• Purpose, Structure, Style, Contents
• Guidelines for Research Reporting
• Style Manuals: APA, MLA and Chicago
• Plagiarism
• Current trends in LIS research.
Recommended Books:

Objectives of the paper:

1. To make familiar with the techniques used in creation of Digital library
2. To make them aware of the various software used in creation of Digital Library
3. To make them aware of the services provided using digital library

Unit I: Development of Digital Library

- Digital Library: Concept, Meaning, Definition, Need & Characteristics
- Major components of Digital Library
- Present Scenario of Digital Library National & International

Unit II: Digital Library Architecture & Design

- Components and their relationships involved in digital libraries
- Architecture, Interoperability, Compatibility, User Interfaces
- Planning, Implementation, Promotion and Evaluation of digital libraries
- Major Digital Library software and their features

Unit III: Standards, IPR and Legal Issues

- File formats, Identifiers & Handle systems in digital libraries
- Metadata standards – Dublin Core, METS, MDS, TEI etc
- Metadata interoperability – crosswalking and mapping
- Copyright and Rights Management in digital libraries

Unit IV: Digitization and Digital Preservation

- Digitization – forms, process, techniques; scanning, OCR, editing and publishing
- Open Standards and File Formats, Metadata and Metadata Standards
- Guidelines, methods, techniques and best practices for digital preservation
- Issues and challenges for digital archiving and preservation
- Institutional Repositories and Open Archive Initiatives
Recommended Book:

Objectives of the paper: -

• To become familiar with the standard methods used to organize and store collections of items.
• To become able to analyze and evaluate ISAR tools and systems.
• To know the different ways in which information can be repackaged.

Unit 1: Information Storage and Retrieval System

• Concept, Characteristics, Objectives, Evaluation of Information Storage and Retrieval (ISAR) System.
• Information Retrieval Process, preparation of Indexes (Pre co-ordinate, Post co-ordinate indexing system etc), Abstracting.
• Vocabulary Control Tools
• Indexing Models and Control Devices
• Thesaurus: Need, Structure and Construction

Unit 2: Database and Information Retrieval

• Man and Machine Retrieval Systems
• Database: Meaning, Definition, Types of Database, Steps in Preparation of Database, Structure of Database & Features
• Multimedia Information Retrieval
• Web based Information Retrieval

Unit 3: Information Consolidation and Repackaging

• Information Consolidation: Meaning, Definition, Objectives and Process
• Repackaging of Information: Meaning, Definition, Objectives and Various Ways for Repackaging of Information
• User Benefits

Unit 4: Information Systems & Bibliographical Control

• Basic Concept and Need.
• Regional, National and International Information Systems: MEDLARS, DEVSIS, NISSAT, NASSDOC, NISCAIR, DESIDOC etc.
• Role of UNESCO and IFLA for Bibliographical Control
Recommended Books:

Objectives of the paper: -

1) To acquaint the students with the research skills.

Project Report Instruction:

- The Project report shall be on an approved topic pertaining to Library and Information Science. Each student shall work under the supervision and guidance of a teacher for his/her Project report.

- The student has to prepare a synopsis on chosen topic and present before the departmental committee. Two presentations on Project report is compulsory i.e. One for Synopsis and One after the completion of Work but before final printing.

- The Project report (4 copies) duly approved by the Guide must be submitted through the Head of the Dept. One week before the commencement of the final practical Examination, failing which the candidates will not be allowed to appear for the examination. In addition the student will have to submit a soft copy of the Project report in PDF.

- The Project report shall be examined by one external examiner duly appointed as per rules of the University

- The Viva-Voce based on Project report shall be conducted by the External Examiner and Internal examiner

- The Department through the Head of the Dept. shall send necessary details of internal work of the students to the Examination section
