The Revision in Curriculum envisages the following:

1) The retention of teaching core aspects of language learning i.e. the Listening, Speaking, Reading and Writing (LSRW) skills.

2) It is recommended that the Literature classroom and the Literature Reader be used as spaces and tools to teach English Language. This will automatically ensure the following:

- The fulfilling of the Curricular objective of teaching Language skills, Grammar and Vocabulary in context.
- It will free up time for the teacher of English who will now not be required to teach the text as a fact-based subject.
- It will help make concepts clearer and less abstract as grammar and vocabulary will now be studied in the context of the Literature lesson in which they are encountered by the student.
- When the Literature Reader is used as a source for comprehension passages, the children will better understand the use and application of language skills, grammar and vocabulary.
- It will reinforce the idea that language skills cannot be studied or acquired in isolation in the ‘language’ classes alone but can indeed be acquired more naturally through the study of different texts and subjects.
- It will promote understanding and application rather than just rote learning of Literature.
- The teacher will be able to use the Literature Reader to teach the components of Grammar in the context of the stories and poems in the Literature text.
**Listening and Speaking**

Listening at this stage is crucial so that children listen carefully to views put forward, reflect on them, and respond accordingly. They listen to a range of texts with comprehension. From this stage onwards listening to radio, film, television and other media occupy a major space. Appreciation of non-verbal clues are also developed. While speaking children express themselves with confidence that reflects a sense of persuasiveness and interpretation.

### Learning Outcomes:

Children will be able to:

- **understand and answer** a variety of questions on a given passage for aural/written comprehension;
- **comprehend** issues/topics raised in spoken texts (public address, guest speaker, televised interview, social media/internet videos) and ask for clarification or elaboration of ideas;
- **participate** in group discussions as leader or facilitator, enhancing the levels of discussion by asking probing/reflective questions;
- use class-level appropriate vocabulary to express their point of view;
- **apply** their understanding from the use of multi-media to make presentations adding perspective to texts/issues. (the use of visual aids is accompanied by a commentary citing sources of information or diverse points of view);
- **develop** a sense of confidence and self-control while making presentations or challenging a stated opinion;
- **evaluate** and respond to opposing points of view logically using appropriate language and physical gestures;
- **develop** the ability to analyse and evaluate the use of language in different contexts (newspapers, television, billboards and advertising campaigns) and its interpretation.
- **adapt** speech to a variety of contexts and tasks;
- **accustom** language as appropriate to the purpose: to persuade, explain/provide information, or express an opinion;
- **include multimedia components** (e.g., graphics, images, music, sound) and visual displays in presentations;
- **interpret information presented in diverse media and formats** (e.g., visually, quantitatively, orally) and explain how it contributes to a topic, text, or issue under study.

Literature encompasses both literary and non-literary writings. Literary writing is an expression of life through the medium of language that is aesthetically pleasing. Literature makes us think about ourselves and our society, allows us to enjoy language and beauty. It helps us appreciate life in its myriad colours along with language learning. Children get exposure to rich use of language through carefully structured sentences and words. Different forms of literature such as prose, poetry, and drama use rhyme, rhythm, alliteration, irony, dialogue and a number of other devices that help develop appreciation and language. These forms of literature introduce children to a range of writings such as story, bio/autobiography, letter, poetic drama, different genres of poetry etc. In literary writing, imagination plays the most important role that would help develop creative expression, sensitization to local and global issues. Non-literary texts such as reports, articles etc. provide academic information thereby enriching the repertoire of children.
